

## Here's to love

Here's to joy And the light brings  
Here's to songs that I'll never sing  
Here's to love And it's sunken dreams  
Here's to live And the way it seems

Here's to love In loveless times  
Here's to all That I've left behind  
Here's to light When darkness falls  
Here's to time There's no time at all

Here's to beauty Broken down  
Here's to what Things turned around  
Here's to gray To old and rust  
Here's to live Turned into dust

Here's to love In loveless times  
Oh here's to all That I've left behind  
Here's to light When darkness falls  
Here's to time There's no time at all  
Here's to time There's no time at all

And I close my eyes When I think of home  
And I hear your voice It lingers on

Here's to friends They come and go  
Here's to you And I hope you know  
Here's to warmth And the setting sun  
Oh here's to all That's lost in one

Here's to love In loveless times  
Oh here's to all That I've left behind  
Here's to light When darkness falls  
Here's to time No time at all

Here's to love In loveless times  
Oh here's to all That I've left behind  
Here's to light When darkness falls  
Here's to time There's no time at all

Here's the time There's no time at all
