

Power over me

I wanna be king in your story I wanna know who you are
I want your heart to beat for me Oh I-
Want you to sing to me softly 'Cause then I'm outrunning the dark
That's all that love ever taught me Oh I-

Call and I'll rush out mmm All out of breath now

**You've got that power over me, my my
Everything I hold dear resides in those eyes
You've got that power over me, my my
The only one I know, the only one on my mind
You've got that power over me (my my)
Got that power over me (my my)
You've got that power over me**

Remember the lake in the moonlight? Remember you shivered and shone?
I'll never forget what you looked like On that night
But I know that time's gonna take me I know that day's gonna come
I just want the devil to hate me Oh I-
Call and I'll rush out mmm All out of breath now

**You've got that power over me, my my
Everything I hold dear resides in those eyes
You've got that power over me, my my
The only one I know, the only one on my mind
You've got that power over me (my my)
Got that power over me (my my)
You've got that power over me**

It was all in doubt They were all around
So we'll hide away and never tell
You decide if darkness knows you well
That lesson of love, all that it was I need you to see

**You've got that power over me, my my
Everything I hold dear resides in those eyes
You've got that power over me, my my
The only one I know, the only one on my mind
You've got that power over me (Woo)**

I know that I let her down, no, Let her down, no
**You've got that power over me, my my
Everything I hold dear resides in those eyes
Got that power over me, my my
The only one I know, the only one on my mind
You've got that power over me**
